Teaching and learning about protected characteristics are fully integrated into SCARF, through age-appropriate content across the SCARF spiral curriculum.

However, some protected characteristics benefit from the in-depth coverage that will give children time to explore the knowledge and attitudes that will help them develop an appreciation of them. The SCARF lessons are mapped and provide this greater depth to the relevant protected characteristics from the LTP, but it's important to understand that teaching and learning about them threads through the vast majority of SCARF lesson plans.
